

ULTRAFLOW® VS VARIABLE SPEED PUMPS

ENERGY COST SAVINGS OF UP TO 80%* FOR STANDARD POOLS

NEW UltraFlow® VS pumps bring the remarkable energy cost savings of variable speed technology to standard pools at an affordable price. They slash energy costs by up to 80%* while helping to keep your pool sparkling clean and inviting. **UltraFlow® VS** pumps come to you from the trusted leader that launched variable speed technology to the swimming pool industry a full 5 years ahead of every other pump manufacturer...Pentair Aquatic Systems. No wonder they still outsell all other variable speed pumps combined. The **UltraFlow® VS** pump is easy to install and easy to use. And unlike others, you don't need to buy and install a separate timer.

- The **UltraFlow® VS** pump costs significantly less to operate because its variable speed technology moves water more efficiently at lower speeds.
- Ideal for standard pools requiring up to 1.5 hp pump.
- For pools up to 60m³.
- Affordable for new and standard pool pump replacement applications.
- Simple, intuitive user interface that's easy to program and operate.
- Easy-to-access electrical connections for simple installation.
- Direct and cost-efficient replacement for Pentair UltraFlow.

* Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of €0.12 per kWh in a 75m³ pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.

ULTRAFLOW® VS VARIABLE SPEED PUMPS

Easy-to-read graphical display makes programming and monitoring a cinch

24h timer

Very large strainer basket for easy maintenance.

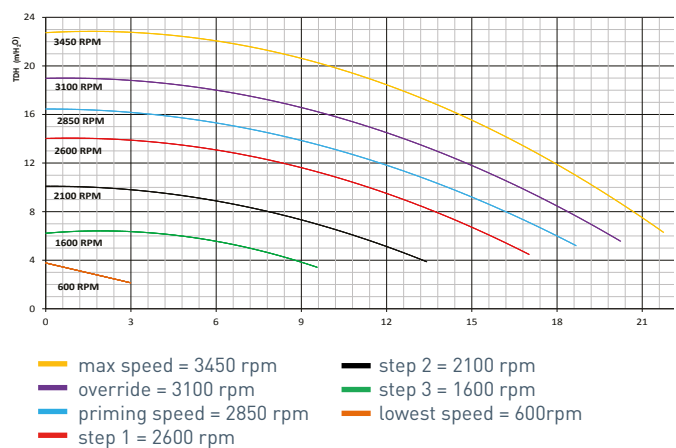

ENERGY EFFICIENT AND EASY -TO -USE

For pool owners who want to step-up to the energy savings of variable speed technology, the **UltraFlow® VS** pump is the wise choice.

It will save up to 80% on operating energy costs versus standard single-speed pumps*. And the **UltraFlow® VS** pump is engineered for easy installation, simple operation, and trouble-free service.

- Three operating speed settings plus override capability.
- Wiring is easy and unlike other pumps, the electronic board is not exposed to exterior elements at installation.
- 230 volts, 50 Hz single phase.
- CE listed.

PERFORMANCE CURVES

An Eco Select® Brand Product

The UltraFlow® VS has earned the Eco Select brand distinction as one of greenest and most efficient equipment choices from Pentair.
