HIGH-EFFICIENCY CARTRIDGE FILTER

Clean, pristine pool water is but a FullFlo XF Filter away...

The FullFloXF high efficiency, high capacity pool cartridge filter provides optimum filtration efficiency, easy maintenance and longer runs between cleanings. This is no ordinary cartridge filter - keeping even the largest, splashiest pools sparkling-clear at a lower operating cost.

Crystal-clear water

Superior filtration removes even the tiniest particles for a sparkling-clean pool experience.

With 57.6 m² of filtration media, the four-cartridge design traps more dirt and extends time between cleanings.

Energy & cost savings

Enhanced internal design and balanced flow enable up to 25% greater energy efficiency and lower operating cost*.

Low maintenance and long life

Ideal for large and premium pools, longer filtration cycles extend periods between cleanings. Designed for easy cleaning and maintenance, with long-lasting durability.

*Statements of filter performance are based on estimates. Actual performance may vary and is not guaranteed. Estimates for filter efficiency are based on the power required to pump 34m³/h of water through a Clean & Clear Plus 520 filter using a IntelliFlo VSF pump versus a FullFloXF C620 filter using a IntelliFlo VSF Pump.

Technical specifications

| Part Number | Model Number | Filter Diameter (mm) | Filter Area (m ²) | Flow Rate** (m ³ /h) | Max Pressure (bars) | Connection D (mm) | Clearance distance* (mm) | Turnover capacity (m ³) | | |
|-------------|--------------|----------------------|-------------------------------|---------------------------------|---------------------|-------------------------------|--------------------------|-------------------------------------|-----|-----|
| | | | | | | | | 8H | 10H | 12H |
| 160448 | C620 | 546 | 57.6 | 40 | 3.5 | 3"imperial/ 63&75mm metric | 1930 | 320 | 400 | 480 |

* Minimal clearance to remove lid and internal element

** Maximal Flow rate
